ADDENDUM:

Parents’ Night

Sunday October 11 (6.30 - 7.15 Meet and Greet) 7.15 PM talks.
Nova Southern University, Davie, Florida (In collaboration with the Cystic Fibrosis Foundation, South Florida Chapter)

Chair:
Andrew Colin, MD

Faculty

1. Claire Wainwright The role of bronchoscopy in young patients with CF
2. Stuart Elborn Infection and Microbiome in CF
3. George Retsch-Bogart How CF Drug Development was Revolutionized by the CF Therapeutics Development Network (TDN)
4. Tarig Ali-Dinar Sleep and Sleep disorders in CF
5. Summer Katz, M.A., NCC, LMHC Emotional Support for the CF Family

Faculty Profiles:

Tarig Ali-Dinar, MD  Dr. Ali Dinar is the Associate-Director of the Division of Pediatric Pulmonology at the University of Miami. After completion of our Fellowship training program in Pediatric Pulmonology (one in two in the state of Florida) he completed a year as a Fellow in Sleep Medicine at Boston Children's Hospital/Harvard Medical School. Beyond his responsibilities as a clinician caring for children with respiratory diseases including CF and complex technology dependent children, he also Directs the University based Pediatric Sleep Program and is on the Faculty of the fellowship training program in Sleep Medicine of the University

Professor Ayse Tana Aslan.
Professor Aslan is the director of the Division of Pediatrics Pulmonology at the Research and Development Hospital, Gazi University, Ankara, Turkey. Beyond her duties of patient care, she has been actively engaged in multiple research projects and resulting publications related to pediatric pulmonology. She is also an active member of the National CF Patient Registry and National Neonatal CF Screening Programs; organizations that offer national platforms for early CF diagnosis and long term course and interventions.

Prof. J. Stuart Elborn. Prof. Elborn is one of the leading figures in European CF, both as a clinician and researcher. He serves as Director of the Regional Adult CF Service in Northern Ireland. He is President of the European CF Society (ECFS) and Director of the Centre for Infection and Immunity, Queens University Belfast. He is also the Dean of the School of Medicine, Dentistry and Biomedical Sciences. Queen’s University, Belfast, Northern Ireland.

Summer Katz, M.A., NCC, LMHC. Ms. Katz is a CF patient and she had a double-lung transplant almost 18 years ago. She works as a Licensed Mental Health Counselor, offers treatment through her private practice in central Florida, and carries the role of Patient Advocate for the Cystic Fibrosis Pharmacy & Freedom Pharmacy (HHCS Health Group of Companies, LLC).

George Retsch-Bogart, MD. Based at the University of North Carolina in Chapel Hill, NC, Dr. Retsch-Bogart is Professor of Pediatrics (Division of Pulmonology), Medical Director of the Clinical and Translational Research Center of NC TraCS Institute, and Co-Director of UNC Cystic Fibrosis Therapeutics Development Center. He is one of the leading figures in CF research in the US in his role as Faculty Director of Network Operations of the CFF’s Therapeutic Development Network’s (TDN) Coordinating Center.

Professor Claire Wainwright. Professor Wainwright is the lead for Cystic Fibrosis at the new Lady Cilento Children's Hospital in Brisbane, which looks after 420 children with CF across Queensland. She is the Interim Director at the Queensland Children's Medical Research Institute (QCMRI), and Professor of Pediatrics and Child Health at the University of Queensland, Brisbane, Australia. She is one of the leading CF researchers in Australia and published extensively in this field.
